Summary

B.S. Computer Science Major at Milwaukee School of Engineering with minors in Mathematics and UX Design.

- Looking for an internship in ML Model Development and Calibration, focusing on Data-Driven Software Solutions.
- Internship experience in full-stack development, cloud architecture (AWS S3), model development, time-series data visualization and analysis, and cross-functional collaboration.
- President of AISC Steel Bridge Club hosting regional symposium with 15+ universities. Professional collaboration with MMSD for research with a presentation at ICWMM 2026. Native level fluency in both Japanese and English.

Education

Bachelor of Science, Computer Science. Mathematics Minor, User Experience Design Minor | Milwaukee School of Engineering | GPA 3.4 | Expected Graduation May 2027

Technical Skills

Programming & Dev: Python, C, C++, Java, JavaScript, Streamlit, FXML, HTML, CSS, AWS S3, Git, GitLab

Data Science: NumPy, Pandas, SciPy, TensorFlow, Scikit, EDA, Time Series Analysis, Hyperparameter tuning

Mathematics: LaTeX, Linear Algebra, Regression Analysis, Bayesian Inference, Gradient Descent Optimization

Internship Experience

RJN Group, Inc.

Downers Grove, IL

Full Stack Software Engineering and Hydraulic Modeling Intern Summer 2025

- Developed a full-stack time-series modeling dashboard with real-time, interactive data editing & visualization features using Python, Git, Streamlit, and AWS S3, improving engineers' modeling productivity by ~20%.
- Built an automated calibration tool and integrated cloud-based data versioning for collaborative workflows.
- Conducted feature demos for engineers, refining backlog priorities to meet both short and long-term user needs.

Research Experience

Predictive Model Evaluation and Calibration for Urban Hydrology

Undergraduate Research

Milwaukee School of Engineering, Dr. William Gonwa P.E., Advisor Jan. 2025 - Current

- Collaborated with the Milwaukee Metropolitan Sewerage District (MMSD), analyzing 12+ years of data from 50+ gauges to extract KPIs and diagnose potential model inaccuracies.
- Developed a machine learning based auto-calibration tool with a user-centered dashboard with Python.
- Planned presentation at ICWMM 2026 on an ML-driven approach to hydrology model calibration and evaluation.

Employment History

Math & Physics Tutor | MSOE Student Employment | 8 hours per week Sep. 2024 - Present

Server, Host | Shabu-You Skylark | 10 - 40 hours per week Oct. 2022 - Jan. 2025

Custodial, Groundskeeping | MSOE Student Employment | 7 hours per week Sep. 2023 - Dec. 2023

Leadership Experience | Community Service | Awards

President, Co-Captain | AISC Student Steel Bridge Competition Sep. 2023 - Present

MSOE Dean's list (5x) | Milwaukee School of Engineering Fall 2023 - Present

Principal Trumpet | University Concert Band & Jazz Band Aug. 2023 - Present

Food Preparation, Distribution | MLK Day Open Door Cafe Volunteer Jan. 2025

Performer | Wisconsin Concert Band Association Intercollegiate Honor Band Jan. 2025

Performer | Madison Scouts Drum & Bugle Corps Summer 2024
